

### **Amendments to the Specification**

Applicant's disclosure should be amended as follows:

[0032] If an application program that might interfere with the operation of the application program opening the content file is not operating, the unlocking program 16 branches to a step 60. In the step 60, the unlocking program 16 executes the application program, and waits to detect the active presence of the application program. If the application program is not detected after a predetermined number of efforts, or time delay, the unlocking program 16 branches to a step 62. In the step 62, the unlocking program 16 warns the user and then exits the unlocking program 16.
